

## Monday 10 Afternoon - Ducale Room

### Oral Communications

OC

14.30-16.30

#### AF ABLATION: STRATEGIES

Chairmen: **R. Luise** / Chieti, Italy - **H. Nakagawa** / Oklahoma City, USA

Easy identification of culprit PV during left atrial tachycardia ablation

**G. Augello, S. D'Ascia, F. Costa, S. Arcidiacono, S. Bonizzato, A. Santagostino** / Milan, Italy

Adenosine can restore excitability of isolated pulmonary vein antrum with veno-atrial conduction block

**E. Lyan, A. S. Klukvin, S.M. Yashin** / St. Petersburg, Russia

Detection of electrical rotors that drive human atrial fibrillation

**R. Sehra, D. Krummen, C. Briggs, S. Narayan** / San Diego, USA

Ablation of right atrial rotors acutely terminates human atrial fibrillation

**S. Narayan, D. Krummen, C. Briggs, R. Sehra** / San Diego, USA

Rapid acute termination of atrial fibrillation: focal impulse and rotor modulation (Firm)

**S. Narayan, R. Sehra, C. Briggs, A. Moyeda, K. Hopper, J. Hildreth, S. Janes, D. Krummen** / San Diego, USA

Infero-septal vs. Left mitral isthmus ablation to treat perimitral flutter

**A. Ardashev, E. Zhelyakov, A. Konev, M. Rybachenko, Y. Belenkov** / Moscow, Russia

Easy roof line block validation with circular mapping catheter

**G. Augello, S. D'Ascia, F. Costa, S. Arcidiacono, S. Bonizzato, A. Santagostino** / Milan, Italy

Safety of pulmonary vein isolation and left atrial CFAE ablation for atrial fibrillation with bipolar and unipolar phased rf energy and multi-electrode catheters

**A. Mulder, J. Balt, M. Wijffels, E. Wever, L. Boersma** / Nieuwegein, The Netherlands
